Hi Dwayne,

Funny you should mention this. Matthew Severson (copied here), our Operations Coordinator, recently did a walk through with our streetscape committee and had looked at those lights. They were a previous CRA project and have not been maintained since their disestablishment. We are considering our options for enhancing the lighting in the Mid-BID and I will keep you posted once I know more.

Also, I know Dan Halden recently walked the Boulevard at night and was aware that many lights are out. I believe the City is working on replacing bulbs that are out so we should see a brighter boulevard soon.

Keep you posted.

Subject: Hollywood Boulevard question

Joe:

I was recently asked a question that I thought you might know the answer to.

A business person on Hollywood Blvd recently pointed out to me that there

were these street lights put up in the area of the 6600 block of Hollywood. But I was asked "what's the purpose of the lights if they're never on?" The guy went on to describe the area as dark and dangerous and not a good area at night.

Thoughts? I'm not sure who's lights those are or who pays for them and who's responsible for lighting up those streets at night.

Thanks,

Dwayne

Hi Joe and Dwayne,

Thanks for checking in. Here's the answer I received from Bureau of Street Lighting last week:

Our Night Crew has confirmed scattered several single light outages and one major light outage on Hollywood Blvd. We have made the necessary repairs to the two service feed points to restore the lighting for Hollywood Blvd between Argyle Ave and Gower St. As for the other single light outages, we require special materials that have run out of stock again. We will need to order the materials and install them after they arrive. We will keep you updated.

Thank you. I appreciate the quick follow up and I am sure the businesses and those that visit that area will appreciate a brighter landscape as well.

Dwayne

Hi Joe:

The message from Street Services references Argyle heading east. Isn't the bigger problem between Highland and Vine?

My understanding is there were several locations, all the way over towards Highland. I reported a few myself around Cherokee, and BSL told me there were several outages in the area.

My understanding is their message regarding parts being out of stock was in reference to that area.

Thanks Dan.

Also, make sure you plan to attend the Hollywood Economic Development Summit – June 24 – 8 to 11 am at Arclight. It should be of interest .. I hope.

If you can make it I will add your name to my guest list.

Regards

Dwayne
